Parent/Guardian Notice and Permission

Filtering and Monitoring during school hours:

The school provides students with access to various technology resources, including a wide range of educational resources through the Internet. The school uses content filtering technology on all school computers with Internet access, this is to protect against unacceptable web content and protect student privacy. However, because no web filtering technology is 100% safe, the school makes every effort to monitor online activity.

Cell Phones

Students agree to store cell phones and devices in their backpack during class periods. Using a cell phone during class should only be done with special permission from a teacher. Air pods or head phones of any sort are not to be worn during the day, unless used specifically to study during a study hall period or with permission from a teacher.

Parent/Guardian Rights:

Parents/guardians have the right to request termination of their child's computer and account access. Parents/guardians should be aware that their decision to limit or eliminate access to technology resources will significantly affect their child's ability to work collaboratively on projects and assignments, and will hamper the development of skills necessary to live and work in this increasingly digital world.

Please sign and return. Students will not have access to School technology, including school Wifi, until form has been returned.
